The Main Gate is one of the most distinguishable symbols of the University. It is ornamented with a crowned eagle surrounded with five stars which symbolise the first five faculties of the University.

During World War II, Czesław Miłosz, a student of the University (in 1932), who was later to win a Nobel Prize for Literature (1980), worked at the Old Library as a caretaker.

The University's oldest building was constructed before 1643. It was initially the summer residence of the kings of Poland: Władysław IV, Jan Kazimierz, who gave the palace its name, and Jan III Sobieski.
